Overview

PC-based POS Software for Single Store Retailers

Easy-to-Use

The intuitive design for Windows allows you and your employees to learn to use the system quickly and easily – avoiding training and re-training costs.

One-Time Purchase

You pay a one-time fee for a perpetual license to the software. The program is installed on your computer – and you own it. No required recurring fees (support is optional).

Rock Solid

This POS System for Windows has had over 25 years of continual improvement. The program is based on the tried and tested Windows OS. It just works as it should day after day after day.

Lots of Features

We have been adding features to the Software since the 1990's. If you have a special need for your business, chances are that we can support it.

The screenshot displays the 'The General Store' POS software interface. The main window shows a sales receipt with the following items:

Line	SKU	Description	% Disc	Qty	Price	Total
