Convenience Stores

Without this POS system, I may have lost my family's convenience store. The system allowed me to not only keep my Pop's dream alive, but to take it to the next level. **James - *Charlie & Sons***

The Best Point Of Sale Solution For Convenience Stores

Everyone goes to your store for all of their daily needs, and expects an enjoyable and quick in-and-out experience. Our iPad POS is the one-stop solution for all of your business needs, allowing quick checkouts with a tap of the finger using our Simple Scan Technology. You can also easily create dozens of helpful analytics reports and export your data to Excel and Quick-Books. Save time, increase profits, and keep your customers coming back with A POS System.

Mobile POS

Line-Busting Mobile Checkout

Line-busting checkouts increase sales and reduce walk-outs from a change of heart. Now you can consult, sell and close the deal simultaneously.

View Real-Time Reports

Whether you're behind the store counter or lounging at home, you can now view real-time reports wherever you are.

Portable Inventory Management

We take multi-tasking to a new level with all-in-one laser barcode scanner and credit card reader. Maximize your retail space and manage your inventory from your iPad POS, mobile or web.

Business Without Boundaries

Using a Smartphone for payment 'wows' customers, and expands checkouts everywhere. We drive revenue growth by extending in-store POS to special sales & outdoor events. *Olli Griffin*

Security data access

Our fortified protocol module enables military-grade security, and TSSM technology protects against malicious third-party tampering. With all of our POS, we encrypt end-to-end and tokenize cardholder data at the point of capture.
