

Automate your business Retail Cloud POS system with the omnichannel

Get ready for the next era of commerce. With an advanced eCom solution, omnichannel loyalty and contactless payments, a fully integrated retail POS is the technology for the future.

Sell to more customers online and off with eCom.

Expand with advanced software built to secure and grow your business across channels. With one click and one platform, synchronize your physical inventory with your eCommerce store—saving you time and increasing your profits.

- Easily import stock from your store to your eCom shop in one click
- Select a theme from a range of mobile-responsive and customizable templates
- View, edit and organize your shipments from your eCom back office
- Make use of built-in tools to boost SEO and drive traffic to your online store

Turn one-time shoppers into loyal customers with omnichannel loyalty.

Offer reward points across channels with an integrated loyalty program. Regardless of where your customers are shopping, you can track customer spending and send targeted offers from one dashboard.

- Craft a tiered rewards program to encourage repeat purchases online and in store
- Determine whether you want to send a promo to those who bought online, in store or everyone
- Send custom one-time deals on birthdays or to VIP shoppers
- Design emails with the built-in templates and drag-and-drop builder
